

September 18, 2011

Hi Eric,

My family and I would like to thank you for your time with us on September 17, 2011.

Due to the circumstance of our mother being diagnosed with Stage 4b cancer in her lungs, brain, bones and liver the beginning of September and all they could do for her was some radiation on her brain to give her some more time with her family and friends, we decided to have a party.

We knew that in 3 weeks from the beginning of her radiation that our mother was going to get very sick for 6 weeks, so if we were to have this party it would have to be in the next couple of weeks while she would still be feeling okay. We had a few days to book a place to have this party and find a D.J. so that we could start calling all the family and friends and give them a place and time for this party..

By luck we found you on the internet and told you of our situation and you didn't hesitate to help us fulfill this experience with the utmost respect. As we didn't have time to call a whole bunch of D.J's, we put our trust in you that you would make this day happen.

So on Saturday you showed up at 12:30 to set up for the Tea party we had for our mother from 2:00 – 4:00 pm. You played background music during this time and I have to say it was very tasteful. I noticed you watched the people and if you noticed a child you would take out some of you magic tricks and entertain as well. Thank you for that!

After the Tea party then we had to set up for the evening dinner and dance for 136 people. As we did a few speeches and a video, you were able to help my niece set up for that.

I just have to tell you that my family recieved a lot of compliments of how well you set the evening with fun dance songs where even my mother's two sisters in their 80's were up dancing away. Again you seemed to have some of you own gadgets to help set the mood for some fun. Everyone had an excellent time and it was absolutely the right thing we did for our mother. My parents also compliment you. We were sitting around the campground the next day and I could overhear my brother talking to one of our cousins that couldn't make it and he was telling her that the D.J. was excellent. So I just wanted to let you know that we would absolutely recommend you to anyone who is looking for a D.J..

Thank you very much Eric!!!!!!

Sincerely,

Brenda Tibbet and the Mundle family
